

MAKE YOUR DAY

A SCHOOL-WIDE CITIZENSHIP PROGRAM THAT ALLOWS
TEACHERS TO TEACH AND ALLOWS STUDENTS TO LEARN

Planning for the New Year

"I appreciate the established expectations as students move through grade levels. The children are already familiar with the vocabulary and set expectations...and consistency. There is a platform to build upon rather than starting new each year."

As your school approaches the Winter Break, take a few minutes to plan for January. It's an excellent time to review and refresh MYD so that everyone is on the same page - students and staff. All of the work you put into learning a schoolwide system pays off when everyone takes the time to review, refresh, and renew. Share with your colleagues your tools for renewing MYD with your students. You can have a MYD potluck for sharing great recipes and great ideas.

The following are a few examples of what you can find on the website under "Materials."
